### Daisy Kisses - Phyllis Brown (MACHINE AND EMBROIDERY)

**Skill Level:** Any skill level is welcome however basic embroidery skills are a must to feel comfortable in this class. Sewing skills required: Basic construction and french seams.

**Description:** A melody of daisies and swirls adorns the playful hem of this daisy kissed sundress. This project explores cutwork embroidery and a few of the key stitches that are used for this technique. When contemplating my embroidery design, I wanted to incorporate some of the embroidery techniques I learned while travelling through the beautiful Islands of Madeira. I saw cutwork on used on several beautiful linens they produce. I decided it was a great technique to adorn this hem. The palette of stitches I used to create this hem are: split backstitch padding (which adds a raised area for my stitches); closed blanket stitch (not to be confused with a closed buttonhole stitch); and cut eyelets. These stitches will be mastered during class time.

The dress pattern used for this class is: **Kimberly by Bonnie Blue**. It is a simple yoke sundress with a ribbon sash to add a splash of color. The construction techniques are simple allowing all the attention to be guided towards the hem. Hem templates have been created for dress sizes 24 months through size 10.

Class time will be spent practicing the embroidery stitches presented, marking your design onto your fabric, with the remainder of time split between construction of your dress and

embroidering your hem.

**Pre-requisite:** If you need a kit including the Kimberly pattern please contact Phyllis at: [g8rsewn@gmail.com](mailto:g8rsewn@gmail.com) by December 1, 2018. **Kit Contents:** fabrics to complete the dress construction; Mother of pearl buttons; ribbon; needles; thread for construction; threads for the embroidery; hem templates and class handout

Proficient in garment construction (French seams, setting in sleeves), as well as French hand sewing by machine techniques (gathering, joining lace to lace and gathered lace to entredeaux) For centuries infants were dressed only in white, but in the early 1900’s touches of color began appearing on baby’s tiny frocks. This exquisite daygown is sure to become a cherished keepsake... reminding mother of those fleeting moments when baby was oh so small.

Join Debbie for two days of machine magic and learn how to create a shadow applique waterfall hem without fabric fuzzies or tell tale hem seam line, shaped pin tucks, pin wheel roses, and perfect machine granitos. She will also teach you how to recreate her famous painless pin stitched baby placket, the tiniest French seams and the other “finishing secrets” she uses to make baby garments that are just as beautiful inside as out. ### **Chenille Throw – Marie Anderson**

#### **Chenille Throw 56" x 66" (includes batting)**

These pre-cut squares make it quick and easy to put this "afternoon quilt" together. The chenille on a roll is added while you are sewing through the backing, batting and quilt top. When you are done sewing the chenille the quilt is quilted.

Skill level- Beginner to advanced - I will bring many color choices to class so you can choose your favorite fabric/chenille color combination. You will learn- basic quilting, pressing, seam placement, keeping your rows in order.

**Student Supplies:** sewing machine, walking foot, large safety pins

**Additional Kit Cost is \$35.,**

**Notes:**

We apologize and regret that it won't be possible for anyone to switch classes during the school. Because this has created problems in the past we feel it best to not permit switching classes.

Another regret is that no one but the student permitted in the class room. No pets, children or friends who are not taking the class.
